The purpose of this questionnaire is to help you become more familiar with some of your interests and potential interests. The questionnaire is not a test and there are no right or wrong answers. Your answers will be completely confidential. You may want to talk them over with your teacher or other students, but this choice is entirely up to you.

Some of the time you spend in the special program will be devoted to working on individual or small-group projects. We would like for you to work on projects that are of interest to you, but sometimes we have to do a little thinking before we really know what some of our interests might be.

A good way to get in touch with our interests is to think about some of the things we like to do now and also some of the things we might like to do if given the opportunity. Some of the questions that follow will be "Let's pretend" questions; but keep in mind that their only purpose is to see what choices you would make in an imaginary situation.

As you read the questions try not to think about the kinds of answers that your classmates might write or how they might feel about your answers. Remember, no one will see your answers if you want to keep them confidential.

Do not try to answer the questions now. Read them over and think about them for a few days and then write your answers. Please do not discuss the questionnaire with others at this time. Sometimes we can be influenced by the opinions of others and this influence may prevent you from exploring some of your own interests. Remember, the major purpose of the Interest-A-Lyzer is to get YOU to THINK about YOUR OWN INTERESTS.

1. Pretend that your class has decided to put on a play to raise money for a class trip. Each person has been asked to sign up for his or her first, second, or third choice for one of the jobs listed below. Mark your first choice with a 1, second choice with a 2, and third choice with a 3.
